About Me

Front-End Developer focused on building responsive, accessible, and user-friendly web interfaces. I work with HTML, CSS, JavaScript, and React, and I enjoy turning ideas and designs into clean, functional websites. Currently, I’m continuously improving my front-end skills by building real-world projects and learning modern web development practices.

Technical Skills

FrontEnd

- HTML5
- CSS
- JavaScript
- React JS
- BootStrap

Tools

- Git & Github
